

## 1932

For 1932, the Bastian Brothers Company won the badge contract and used a distinctively different type of back pocket. Bastian Brothers produced the badges for 1932, 1937 & 1939. The design elements of both badges are actually quite similar, though executed in different colors.

## 1933

Whitehead & Hoag recaptured the contract for 1933-36 and used a slightly different back (Type 2A). With an outer ring on the non-resident badge and no ring on the resident badge, the designs lack any semblance of parallelism.
